

Easton is home to many public and private farms. Here is a listing of the many farms and farm stands serving the public.

Please note that the Coronavirus pandemic will impact hours and openings.

*Each farm and store is operating independently to best suit their business model. Please look to their websites or call to find out what process they have put in place. We encourage patience and understanding at this time. The process that was in place a week ago may have changed thus please check before each purchase or visit. Examples of how some farms and stores are operating include: farms are closed to visitors with online, email or call in ordering with curbside pick-up only. Farm markets are open with strict social common-sense practices in place to limited number of people at a time allowed in to maintain 6' social distancing protocol. **Masks are required.** Know before you go!*
